

**The perfect wall
system**

**for car and truck
washes**

 **Excellent Panel**

where excellence meets simplicity

Nice and practical

The PVC wall system that always fits

The innovative panels from Excellent Panel are ideal for new builds or renovating walls and ceilings in car and truck washes. The panels are corrosion-resistant, durable and quick and easy to install thanks to the specially developed click system. In addition, the Excellent Panel panels create a clean, modern and very professional appearance.

Advantages

- > corrosion-resistant
- > durable
- > easy to clean
- > several RAL colors available*
- > high chemical resistance
- > available in project length
- > lightweight, quick and easy installation
- > impact and shock resistant

” The panels from Excellent Panel are very easy to install due to their low weight and are of high quality.”

Our colors*

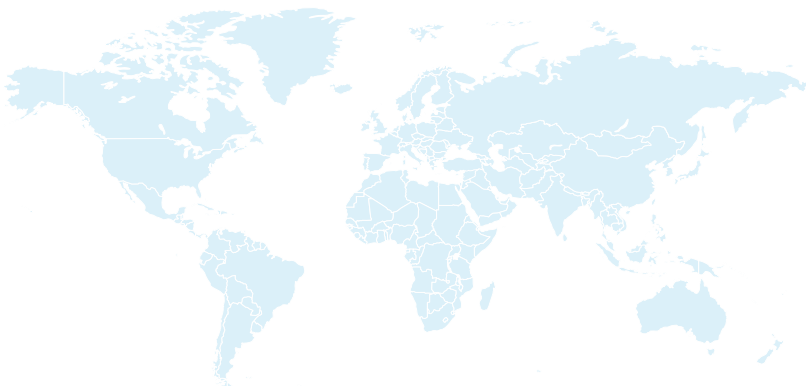

* Other RAL colors available on request

The solution that combines professionalism and simplicity

The extensive Excellent Panel range is available in different variants, several RAL colors, with insulation or as a translucent variant. This gives you the opportunity to furnish your project functionally and entirely to your own taste.

Excellent Panel combines professionalism with simplicity and offers a smart solution for car and truck washes. Contact us without obligation for more information about the possibilities.

Also for new construction and renovation of rollover car washes, car washes with conveyor system, self-service wash boxes, car preparation, train wash systems, tank cleaning, car and other workshops, Excellent Panel is the solution.
